Powering Experiences. Transforming Lives.

## Present with Power

Office Magix box is an excellent presentation device to show corporate videos. Now, no more turning on the DVD player and changing modes for running corporate videos. You can run any media when you want, where you want, using the control panel of our Office Magix box. Impress your customers, visitors, employees and other stakeholders with this powerful presentation feature.

## Enable Internet for information discovery.

For brainstorming and discussions on the fly, the Office Magix box can be enabled on internet. Now you can browse and explore using this feature. With Office Magix, collaborative searching and brainstorming for ideas is done as a group activity. This facilitates the discovery process with speed.

## Video Conferencing

The Office Magix suite comes with a camera and built-in codec for video conferencing on H.264 standard. Doing away with the mouse and keyboard, you can now initiate a call with outstanding clarity on any compatible device. A boon for small meeting rooms and branch offices, the box provides an unparalleled value for money alternative.

## Control equipment

You can now easily control projectors, LCDs, lights and other facilities in the meeting room by just using a remote. Easy-to-follow options are provided on the overlay. Compatible with professional/consumer grade equipment and compatible with serial, IR, IP and other proprietary protocols, it puts you in complete control.

## Powerful Touch Interface

With a touch panel interface, instantly do away with the mouse, keyboard and remote in the meeting room. Control all the functions with this multi-touch device. More than a universal remote control, the panel is your choice. Powered over Wifi Network, this unique touch interface provides a facility to control the box from anywhere on the corporate network. A secured login access code that changes in real time, ensures access is only allowed to authorized users.

## Compatible with Meeting Magic

Office Magix is compatible with Meeting Magic suite, a powerful meeting room scheduler from Niche. With a common management backend, the combined suite provides a complete meeting room solution. Ask your partner about more information on Meeting Magic.
