

Powering Experiences. Transforming Lives.

Home Entertainment Suite

Entertain. Automate. Educate

Your House, your entertainment, your control.

Integrates TV, Internet, Movies, Music and more.

Simply plugs into your existing equipment.

One touch control.

Surprisingly affordable.

3D Ready

Multi purpose, maximizing utility.

With X-Magix Home Entertainment Suite, you get unprecedented movie, internet, and music experience at your finger tips. Now, impress your family and friends and bring in the magic...

Imagine... an automated relaxed evening at home after a hard day at work.

After a long day at work, you are about to enter your home. On the way, in your car, you activate an option on your cell phone and viola, your AC starts to cool your home, your favourite music starts playing, LED lights are set to the relaxing mood... ready for the master to enter! A quick click highlights wine information and cocktail information right from the bar inventory and your wine gets chilled in the refrigerator

Imagine... 3D experience in your own home.

You can now watch simulated 3D with googles in your own home using standard content. A smart way to start the journey towards the third dimension.

Imagine... Setting a romantic mood for your sweetheart

Caught up with a hustle bustle of life...no time, looking forward to surprise your love? Just set some soft music, draw the curtains and dim the lights. Do all this with just a click on your mobile phone and you are ready to enjoy the evening ahead.

Imagine... Owning a multiplex right in your own home!

Select from a variety of movies on line or from X Magix box. Start the show when you want...take a pop corn break when you want... Stop and resume when you want! Get absolute control over movie watching, right in your own house. Setup a personal multiplex right in the living room or entertainment room. With 7 feet X 5 feet display and realistic sound see and hear and feel an out of the world experience. Its especially a hit with new parents who cant go to movie theaters with their infant or kids.

Imagine... you are a now a karaoke star.

Move your singing from your bathroom to your living room. Enjoy with family and friends and let them sing along too. With two microphones attached, you can now sing a duet song with your partner.

Imagine... you want to chat with your overseas contacts.

Why limit the video chat to a small laptop or computer screen. Start a session right on your TV set or the large format pull down screen. See life size images and experience closeness with your friends and relatives abroad.

Imagine... controlling experiences anytime from anywhere.

With just your cell phone as your master gadget, take a one point control of all the devices in your entertainment zone. Just activate options on your cell phone and see the magic happen. Increase volume, draw curtains, select music, pause movies, all with your cell phone! At home, you can keep the phone away and control using gestures and voice commands. Truly futuristic! Get into the Magic World.

Imagine... Reminders for the entire family!

Now program the system to generate reminders for the entire family as a display, email or SMS. Remind elders for taking medicines, kids for getting ready to go to school, maids for their things to do, housewives for shopping list. All this while you watch your favourite TV shows. Remember all your birthdays, anniversaries and special days with the family.

Imagine... Keeping an eye on kids at home while you are away at work

See your kids at home on your cell phone from anywhere in the world. See a recorded view of all cameras installed in the home for surveillance. For the elderly, watch critical health parameters, medicine intake and well being on the move.

Imagine... All of the above, designed & executed for your home.

Integrate your existing equipment, connect and you are ready to go to a dream magical world. All at a very affordable price! Our special site survey team does a detailed study and configures the best fit for you. The system is expandable and can accommodate most future additions

X Magix Home Entertainment Suite

Entertain. Automate. Educate

Powering Experiences. Transforming Lives.

Now organize all your favourite X Magix apps like music, media, video chatting, movie reviews, etc in easy to use templates. You now have one control box linked to you mobile phone to define magical experiences. With X Magix presets, you can now schedule content for playback automatically. X Magix Box comes with media storage in tera bytes! With a external DVD drive, you can watch educational or entertainment media of your choice instantly. X Magix is an store for all your pictures, movie files and music. No more changing Music CDs, hunting for photo albums etc. With latest internal AV format support and high definition support on HDMI ports, you are assured of the latest in video technology. The Box can be preprogrammed to show templates of choice and content. The screen is automatically partitioned in three parts showing business news every day in the morning at 8 am, along with weather forecast and showing the on-line newspaper edition. At 8:30, the template switches to a full screen stockmarket channel and so on.

Mobile Command Centre

With your own mobile*, communicating with the X Magix Box, you can control all your equipment just like a universal remote control, and do much more. You can preview TV channels, select sound tracks to play, invoke a master keyboard and mouse control for the X Magix entertainment box. With simple intuitively designed menus organized neatly in pages, the user interface is surprisingly simple and easily configurable.

LCD TV DVD player and Set Top box.

Using (your current) LCD TV, DVD Player and Set top box, you can now do internet surfing, videos, blogging, picture sharing along with regular TV channel viewing.

Large Format Projector

With the large format projector and matching surround sound system, transform your home into a multiplex. With support for most industry standard equipment, you are assured of the best price and performance.

Karaoke System.

With our standard Dual Wireless Microphone options, we have a way for getting the best voiceover for karaoke music. Integrated with guided video system, you know what exactly to sing and when.

Interactive White board

With the unique X Magix white board software, convert the screen into an instant whiteboard, using the special pointer. Now you can write, draw, make notes and teach your kids or just have fun. A saved copy, email or printout follow the session.

IP telephony and Video Chat

Using the in built IP telephony and video chatting tool, you can initiate a video call on a large format Projector. You can now see life size images, that mimic telepresence with the 3D experience. With an integration with IP telephony, make international calls over IP networks virtually free, cutting telephone bills. In fact, get an overseas number with your subscription for relatives to call you back!

Wireless keyboard with built in track ball.

For some more fun with keys like chatting, entering passwords, just take out your wireless keyboard with a built in trackball and sitting right on your couch, you have complete functionality

Wireless Devices and Bluetooth interface

Now print your favourite pictures anywhere in the house using our range of specially configured wireless printers. Transfer content from your cell phone directly to X Magix Box using the Bluetooth interface. Instantly share the pictures and videos on line on social networking sites.

Automation Devices

We support a large range of remote controlled automation devices like ACs, Motorized Curtains, Lights, Dimmers etc. for immediate integration into the device. E.g. switch on the bedroom AC from the living room!

Expert advice and updates

With every increasing demands on your time for work and leisure, your search for latest news on gadgets, cool news ends at the X Magix web site. The site offers choicest updates and upgrades to all installations.

Internet with broadband over wired or wireless lines.

With our choice of wireless routers and compatibility with most leading ISPs, you can now access high speed internet on the fly, from the X Magix box and your cell phone. X Magix box is also compatible with wireless high speed cellular broadband and 3G modems for special applications. With our preconfigured firewalls to provide total protection to your installation, the X Magix team also uses the same infrastructure to give remote support.

Complete design, installation and commissioning

We offer a complete turnkey package with end to end implementation to re-use your existing equipment while designing packages for your home. With use of acceptable quality cables, equipment and switching devices, we ensure connectivity between multiple sources, all at a very affordable prices.

Instant Remote Support

With most hardware sourced from reputed standard manufacturers, support is immediately offered on a remote basis through the internet.

Some features are optional and depend on the particular devices used in the configuration.
