

Solutions that work for your business

Maximise investments

Centralised Management

Over 150 solutions for 20 business verticals

More than 3000 deployed internationally.

Driving key messages across with centralized control, Streme offers unlimited options to build solutions to enhance the experience with effective communication & interaction.

### Enhancing the customer experience

With Streme, you can build and deliver world class experience to your customers. Today, interactivity and driving the key message being the need of the hour, Streme provides you the platform to deliver the same.

### Interactive Audio Visual Tools

Instead of just simple broadcast signages that are in a looping mode, you can integrate devices like simple TV remote controls to build interactivity. With interactivity, you take the customer recall and engagement to the next level. On large screens as opposed to smaller kiosk screens, you deliver audio visual messages powerfully to build the customer experience.

### Environment Friendly

Streme supports the Go green revolution. With digital displays, you avoid unnecessary papers, printing and transportation, resulting in saving trees and reducing pollution. Streme supports embedded technology for lower power consumption, thereby supporting the environment further.

### End to end solutions.

We work very closely with most national and regional system integrators. Our solutions approach guarantees a working design of the entire solution. We are open to working with your existing SI partners. Taking end to end responsibility of delivery, you can now rest assured of a perfectly rolled out project. We even provide services like creative adaptation and network management to our customers.

### Proven Framework

Streme works on a 150 component framework. Streme powers thousands of screens across the nation including leading banks. With focus on embedded systems, we bring unmatched reliability, security and scalability to the network. You can setup a centrally controlled, future proof, expandable, secure network.

The Streme framework consists of player hardware, embedded OS and Streme's embedded player software. Streme player software is benchmarked and proven with leading hardware providers, featuring the latest technology to deliver truly outstanding dual-core performance computing power, great battery life as well as, low power, with multiple OS support and longer life cycle commitment.

# Education Solutions

*Transforming Learning Experience.*

## Streme –Reception Displays

Installed at reception of the institute, the welcome board creates the first winning impression for the visitors, recruiters, trustees, faculty and students. Integrated with Live Campus TV, the reception can now broadcast live events as they happen over the campus.

Reception Displays

## Streme – Campus Signage

Running across the campus on wired, wireless and gsm networks, the displays provide latest information to students and faculty instantly. Announcements, directions, welcoming visitors and more

Campus Signage

## Streme - Classroom Activity Displays

Displays outside each classroom show name, and time of the session being conducted in the class. An impressive display for visitors, this enhances the brand image of the institute with a marginal investment.

Classroom Activity Displays

## Streme –information Kiosks

Kiosks that turn into digital signage when not in use attract the attention of the visitors. As soon as the visitor comes near the kiosk, the kiosk switches to an interactive mode. Fully functional single or multi touch applications with devices like card readers are configured to maximize user engagement.

Information Kiosks

## Streme Encoder– Distance Education

An ideal tool for Distance Education, Using Streme Encoder a teacher can now reach instantly to all schools in the region. This empowers education to under-privileged students. A Central Broadcasting at studio can be integrated with a question bank and a Remote device at classroom for feedback. A Monitoring at studio with live web cam feeds from each classroom provides live one on one video chat facility. Streme Encoder works over broadband connection, lowering costs and increasing reach.

Distance Education

## KlasMate – In-classroom training.

Used for in house or corporate training facilities, Klasmate offers a scalable solution that empowers sharing, collaboration and learning. A facility for Recording sessions, Screen sharing, Chat, Annotation and recording provide a complete out of the box solution.

In-classroom training
